

SENTINEL REPORT GENERATOR

Please note you will only be able to run a report on the Faculty/School/Service to which you have been set permissions:

To run a report:

Log on → Adhoc Reporting → Report Generator

1. Enter report name (type in appropriate name for your report)
2. For module name select **accidents and incidents**
3. Double click on the columns button – (Information used for building a report is pulled from fields used in the main accident report form, therefore reports can be tailored).

E.g – To run a basic report which is specific to date range and School/Service - please select the following entries for the **Column** field:

Date of incident
School/Service Where Accident Happen
Incident Classification
Brief Description of Incidents
Building Location
Category of Affected Person
RIDDOR Reportable

Then press ok which returns you to the previous screen

4. The **Query** field is dependant upon what information you are trying to obtain – the example below illustrates how to run a report for the date period 01/04/2008 – 31/06/2008, for Residential and Commercial Services, the report only wants to show unwanted fire signals:

- a) Under available dictionary item – double click on **Date of incident**
Under Operator – select greater than or equal to
Under Value – type 01/0/2008 - ADD
Under Operator – select less than or equal to
Under Value – type 31/06/2008 - ADD
Under available dictionary item – double click on **School/Service Where Accident Happened**
Under Operator – select containing
Under value – type Residential and Commercial Services – ADD
Under available dictionary item – double click on **Incident Classification**
Under Operator – select containing
Under value – type unwanted fire signal – ADD

Then press ok

The screenshot shows a web browser window titled "http://www.leedsuniversity-sentinel.org.uk - Report Generator - Query Selection - Microsoft Internet Explorer provided by ISS". The main content area is titled "Report Generator - Query Selection".
