

# Colonel Mustard with the elephant in the corridor

The equipment fits in the room but there's no way of getting it in through the door.

*Time for a rethink?*

If you plan properly you are less likely to have problems later. Avoid those nasty surprises and involve health and safety in your planning before you buy or acquire large, complex or high risk equipment.

Investigate the work equipment health and safety protocol by visiting [www.leeds.ac.uk/safety](http://www.leeds.ac.uk/safety) or ask your Health and Safety Manager.
